

Hello

# ERIKA RODRIGUEZ MEDINA

@erikadecanella

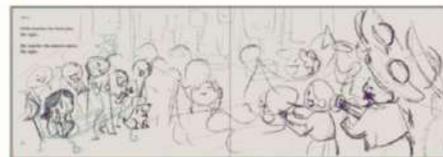

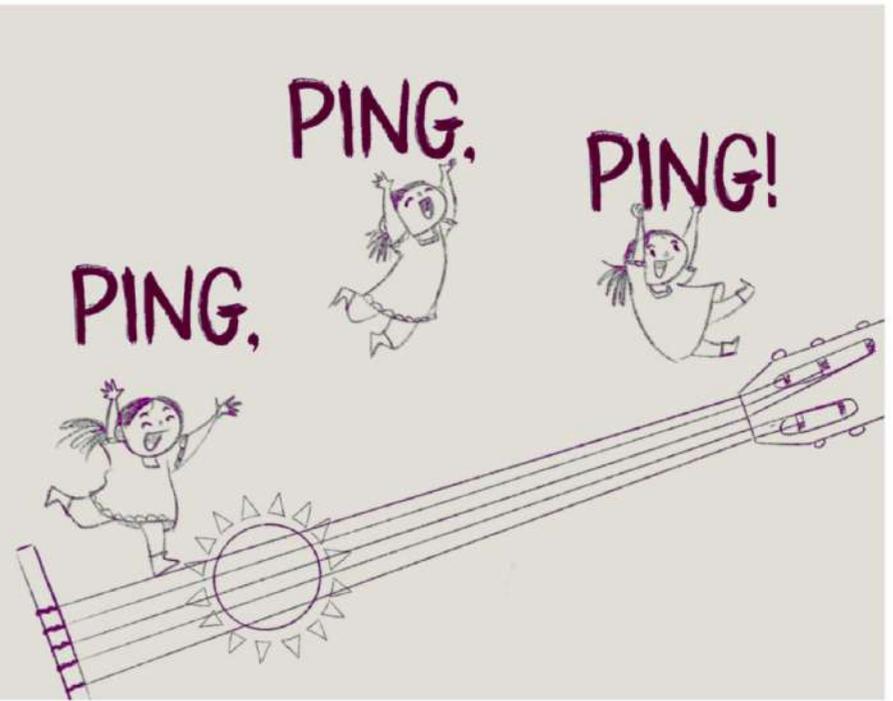

I'm a Mexican illustrator and book publicist living in Canada. My favourite things in illustrations are expressive characters, scribbly lines and grainy textures. There is a special place in my heart for folklore, spooky stories, big house plants and things you'd find at a grandma's house.

But while I do, let me show you something. Come along! Let's peek behind the curtain page.

I care about creating images that show big emotions, connection, flow and movement. I enjoy stories that have ghosts, folklore, bonding moments, friendships, angry and assertive kids, plants and nature.

Thank you
