

# Hi! I'm Jaime Kim

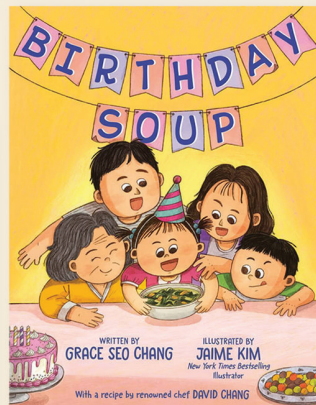

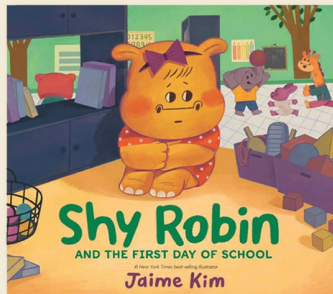

I love creating whimsical and nostalgic illustrations that bring joy. I'm always excited to explore new art mediums and techniques. I enjoy doodling, experimenting with different art styles, and creating stories for kids.

## Recent Book Projects

My personal work is often inspired by the things I imagined and experienced during my childhood, especially the special bond I share with my sister.

These childhood memories deeply influence my work and sometimes, picture book stories naturally develop from them.

Designing characters is one of my favorite things. Sometimes I find inspiration for story ideas from the characters I've made. The characters on this page don't have stories yet, but I'm working on creating narratives that will bring them to life!
